# Introduction

Saturn is the great timekeeper of astrology, its 30-year cycle slowly marking out the creation and completion of the physical form. In esoteric astrology time is said to stop at the age of thirty when Saturn completes its first cycle and turns to repeating itself. From thirty years onward it is said that we begin moving beyond the grasp of time into eternity. It is said that the first thirty years we spend building our personal space capsule, the physical body. At any rate, Saturn is a key planet to note in our birth chart.

What follows amounts to a brief overview of the first thirty years or so of your life -- a road map of the years to come. Since childhood, adolescence, and early adult life are so crucial to each of us, an attempt has been made to describe these formative years from an astrological perspective. Based on the gradual movement of the planet Saturn, this is one of the most tested of all astrological techniques. It is used by almost every professional astrologer as part of any personal consultation. Provided that your time of birth is more or less accurate, you will find this information both accurate and informative. Here is a general life overview, followed by a close-up on your current changes -- what is happening right now. First the overview:

01st Saturn Cycle  
Dates and (Age)  
on Angles

02-13-89 (18)  
07-06-89 (19)  
11-13-89 (19)

You are what is called an "early riser," and your outgoing nature should start to show up around seven or eight years of age. From that point onward, there should be increasing self-confidence with each passing year, which will bring you into the real social scene in your early teens. You may well be a class leader or in some way be achieve prominence in the your group □ public recognition. And this continues to build to some kind of high or climax when you are around twenty-one or twenty-two years of age, at which time you may be on top of your world -- very successful at an early age.

In other words, this type of chart often indicates a prodigy or one who shows great promise early on. However, do note that after the age of twenty-one, your upward and outward climb will slow and you could well fade from the scene as easily as you rose to the top. After the age of twenty-one or so, make plans to consolidate your

gains and to sustain your success. And do not be surprised if your life-long interest in outward success and being social wanes. At this time, your attention and general life direction will begin to take a more inward turn. All of this is quite gradual and will not reach any great turning point until your late twenties.

Let's recap: You may experience some sort of social prominence from an early age, when you are around seven or eight years old. Astrologers call this the "Early Riser" type, as the individual receives some kind of social or public prominence early-on in life rather than later. And this jump-start continues to build all through the school years, which are usually a very successful and outgoing time - social. However, in the early twenties, there is a shift on the part of the individual away from outward or social interest, and they become more inward, more interested in their inner life and spiritual ideas. This more inward time will continue for some fourteen years, with a time of greater deepening around the age of thirty.

# Saturn – Second Cycle

**Dude Jaway**  
 02nd Saturn Cycle  
 Dates and (Age)  
 on Angles

In the second Saturn cycle we are each born free from the grip of time. Our physical body is complete; we have reached our prime, sustain for a while, and then gradually decline. And although our physical body has ceased to grow, our mind continues to expand beyond those physical limits. In a very real sense, we are all born again, but this time the birth is spiritual not physical.

It is during this second Saturn cycle that we learn to control ourselves mentally (and emotionally), manage our lives, and build a career. It is during this time that we are in our majority that success in any endeavor is

most possible. In the inner teachings it is said that we spend our second thirty years repairing the damage we made (without realizing it) emerging from our first thirty years.

This second cycle of Saturn is the most opportune for physical success as all roads lead up to us from youth and away from us in old age. We stand at the crossroads, the pinnacle or prime of life and can see both ways.

# Saturn – Third Cycle

**Dude Jaway**  
 03rd Saturn Cycle  
 Dates and (Age)  
 on Angles

01-26-48 (77)  
 08-08-48 (78)  
 10-17-48 (78)

06-21-56 (86)  
 09-15-56 (86)  
 03-09-57 (86)

11-30-40 (70)  
 04-10-41 (71)  
 08-26-41 (71)

06-28-33 (63)

In this third and (for most of us) final Saturn cycle our physical form is definitely in decline but our spiritual horizons only continue to broaden. It is said in the esoteric tradition that in this cycle we can experience becoming an active part of the creative force in life itself, not just conceptually, but actually. We are able to work with those younger than we to shape and direct their activities. Although we begin to retire from the physical scene, inside we never age but are as young as we can remember.

It is during this time that any mental training, patience, and self-control really pay off. We are now very much

the fruit of our own discipline and experience; it is during this time that we are very much out of the body more and more of the time. If we have no discipline we are somewhat at the mercy of the winds of change, but whatever control and mastery we have achieved now works with and for us to complete our life. We can feel very creative and part of the creative forces that are all around us.

### Saturn Transits Midheaven - Dec 22, 2018

The dates at the top of the chart pertain to the following:

You are riding a high now in terms of taking advantage of the cycles in your life. This may well be a high-water mark; however, this is also the beginning of a series of years during which you should begin to consolidate and tie down the advances you have made in recent years. It may be best to begin to dig in and strengthen your current position rather than expand outward too much. You will find your mind beginning to turn away from the external (the material) and to be concerned with more inward and spiritual ideas. All of this will become clear over the next several years. This time marks a change of direction for you, away from the material and glitter, toward inner needs and security. You will find yourself more concerned with maintaining and strengthening your position, rather than pushing outward. In summary, a kind of high-water mark in the outward and social department. These years should be easy and filled with opportunities and friendships. Enjoy them. More demanding and inward years will be forthcoming a little further on down the road.

**Ideas of Authority**

Saturn Conjunct Sun Transit to Natal

Your practical and organizational skills are at their clearest. This is a more subtle change, moving from trying to expand your control, and to perhaps better organize areas of your life, to trying to find a solid base on which to stand and stabilize things. More often than not this involves a swing toward the past, toward what works or has worked, and away from anything more speculative or insecure. Security is the key here, and going against that will result in even greater instability.

**Ideas of Authority**

Saturn Conjunct Sun Transit to Natal

Your practical and organizational skills are at their clearest. Perhaps more of an internal change than one that is flashy and outward, this shift in emphasis marks your moving out of the past, out of whatever obligations and responsibilities you have to do, and onto a future of greater control and mastery on your part. In other words, you will be better able to handle things, to exert control over your own affairs, and direct your future than you have up to now. This is the beginning of a more future-oriented time.

**Ideas of Authority**

Saturn Conjunct Sun Transit to Natal

Your practical and organizational skills are at their clearest. This is a more subtle change, moving from trying to expand your control, and to perhaps better organize areas of your life, to trying to find a solid base on which to stand and stabilize things. More often than not this involves a swing toward the past, toward what works or has worked, and away from anything more speculative or insecure. Security is the key here, and going against that will result in even greater instability.

Saturn Conjunct Saturn Transit to Natal

A major life event that marks the end of a formative period and the beginning of more independence. You are on your own, and this marks the start of increased responsibility and accountability. A time for deep thought, review of self, a new chance.

This concludes your Life Landscape Report, the chronological movement of Saturn (the sequence of time) through your natal chart.

Most astrologers would agree that the 30-year cycle of Saturn through the astrological houses and specifically the  $\square$ Angles,  $\square$ (Ascendant, I.C., Descendant, and Midheaven) represents one of the most accurate and telling of all astrological factors.

Saturn signifies the physical form as it emerges through time after birth, reaches our  $\square$ Prime,  $\square$ and then begins to fade. This is usually divided into three cycles of thirty years each.

I like to think of the first thirty years, while Saturn is building our physical body and form, as the time when we each build ourselves a space capsule as well as we can, as solidly as possible  $\square$ our body.

Then after the age of thirty, we are launched into outer space. Time as we knew it ends and we begin the next Saturn cycle and are born beyond time. My teacher told me that in that second cycle we each repair the damage we made during the first cycle and during the process of being launched.

And finally, in our third 30-year cycle, it was explained to me that we can consciously and actively participate in the creative life force, literally shaping life in those younger than ourselves. I hope you have enjoyed your report.
